

3. Does DueMinder contact my credit card companies? I have entered web-site information for all my acc

No, the web site information is for your reference only, helping you quickly log in to your credit card web site to check balances and make payments.. DueMinder does not contact your credit card companies. This would be a useful feature to synchronize your DueMinder account information directly with your credit card company, but this feature won't be available in the immediate future.
